The original Well Tractor® was in fact a version designed to run on Coiled Tubing. Harnessing the fluids pumped from surface it is an essential tool for overcoming helical buckling or washouts, pulling the coiled tubing deeper into the wellbore. It is available in a wide range of sizes and compatible with a full range of downhole tools allowing operators to pass coil and tools through small restrictions as well as operate in large diameter borehole. Extend your reach with the CT Well Tractor®.

APPLICATIONS
- Stimulations
- Clean-out solutions
- Perforating
- Milling solutions
- Mechanical solutions
- Spotting pills
- Fishing
- Depth determination
- Washing / displacing
- Fracturing

FEATURES
- Passive fail-safe system
- Modular
- Surface read-out
- Logging while tractoring
- Wide range of sizes
- Universal through wiring
- NACE compliant

BENEFITS
- Overcome buckling
- Prevents stuck tools
- Configurable
- Maximum efficiency
- Optimal data acquisition
- OH or CH applications
- Large range of ID’s accessible
