The Well Tractor® was regarded as a revolution in the industry when it was introduced to the market in the 1990’s. It enables operators to extend the reach of traditional e-line deployment into highly deviated and horizontal wells, making it one of the most cost-effective and successful applications for deployment in well interventions.

APPLICATIONS
- Clean-out solutions
- Perforating
- Milling solutions
- Fluid sampling
- Mechanical solutions
- Pipe recovery
- Fishing
- SAGD ranging
- Depth determination
- Seismic measurements
- Any e-line service

FEATURES
- Passive fail-safe system
- Modular
- Surface read-out
- Logging while tractoring
- Wide range of sizes
- Universal through wiring
- NACE compliant

BENEFITS
- Prevents stuck tools
- High speed vs high force
- Configurable
- Maximum efficiency
- Optimal data acquisition
- OH or CH applications
- Large range of ID’s accessible
- Operates on any e-line via DC
